

We are very excited to offer an expanded product offering in the Work Comp sector in Colorado. As of today, we will be accepting MONOLINE work comp accounts in the following classes:

- Concrete Contractors
- Floor Laying Contractors
- HVAC
- Janitorial Services
- Plumbing Contractors
- Wall Covering Contractors
- Carpet Laying Contractors
- Electrical Contractors
- Furniture/Fixture Installation (Commercial)
- Landscape Services
- Lawn Care

Accounts should meet the following guidelines to be considered:

- Currently in business (no new ventures, or new comp lines)
- Payrolls up to \$1mil.
- Loss Mod 1.0 and lower

For Hanover to consider a risk you'll need the following:

- Loss Runs need to be included
- [Contractor's Supplemental](#) needs to be filled out and included
- Accounts will be referred to underwriting to review

All these risks (provided they are under \$15k in premium) are eligible for the **20% commission** until December 2021. However, increased commission on accounts above \$15k in premium is not available in these classes.

Hanover is not a market for the GL in these classes of business.
