IVANS Download Application

Direct downloading is the ability for Pinnacol Assurance to send our agent partners their daily policy, claims, and monthly commission data electronically. This data will be loaded into the agent's Agency Management System automatically, eliminating the manual entry of the data from a separate report.

Agents are responsible for purchasing data-downloading software from their AMS provider.

If your agency would like to take advantage of the downloading feature offered by Pinnacol Assurance, please complete this form and return it to submissions@piiac.com.

Pinnacol needs the following information:

Agency system type: _____

Machine Address (e.g.: IBM303AGENT)   _____

IVANS YACCT: _____   USER ID: _____
